

QUICK WORK OF DOCTOR SAVES HIS CHAUFFEUR

Gasoline Stove Explodes, Burning Joe Johnson, Negro, Who Was Wrapped in Art Square and Rolled on Floor by Dr. Davis.

With the skin of his face and arms hanging in shreds and his clothing in flames, Joe Johnson, negro chauffeur, was saved from death by his employer, Dr. M. S. Davis, who caught the negro and wrapped an art square around him to smother the flames following the explosion of a gasoline stove in the doctor's office this morning about 9 o'clock.

The negro was working about a gasoline stove which is used to heat water to sterilize surgical instruments, when there came a quick report and simultaneously a volume of flames flared up. The negro did not have time to get out of the way. Fire ignited his clothing, and his face and arms, with the skin burned almost loose, was a ghastly spectacle. The pain and the shock maddened the colored man, who instinctively ran, knowing not where he was going, blind, temporarily at least, to the situation.

Doctor Saves Him.

With rare presence of mind, Dr. M. S. Davis, the employer, grabbed the negro, and matching strength against strength, wrapped the black man in an art square and rolled him on the floor, smothering the flames. Help came and Johnson was placed in an automobile and taken to the office of Dr. T. M. Barnett, North Foster street, where his wounds were treated and bandaged. While Johnson's wounds are serious, they are not considered fatal.

Firemen Respond.

Someone gave the fire alarm and the combination automobile fire truck made a quick run to the scene, prepared to work, but the flames had been extinguished. Smoke had been seen coming from the building, which led to the belief that the interior of the office was afire.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hacking, sneezing, blowing, head-ache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves instantly.

MOBS CONTINUE TO ATTACK GERMANS IN DEFIANCE OF POLICE

Bloodshed May Come Until All Teutons Are Interned.

London, May 13.—Defying the police and the military authorities, mobs in London and other English cities continued their anti-German warfare today. Hundreds of thousands of dollars worth of property owned by Germans was destroyed. At some places troops were called out. Scotland Yard called up three thousand "war constables" to preserve order in the east end of London. General Sir Francis Lloyd, commanding the military district of London, was warned by the home office to keep his troops under arms as their service might be needed at any moment.

Rioters wrecked German saloons and stores. British men and women furiously shouting, "Remember the Lusitania," battered their way into the homes of German citizens, smashing furniture and assaulted the owners. Persons bearing Teutonic names or having Teutonic cast of countenance were in grave personal danger if they appeared upon the streets. In Black Friars the violence of the mob assumed the proportions of wild frenzy.

Unless the government immediately decides to intern all Germans and Austrians (a proposition that is now under consideration by the cabinet), bloodshed may follow here as some Germans have given notice that they will arm themselves for self protection.

CLAIMS TEDDY HAS INSULTED GERMANY

Berlin, May 13.—The attention of Baron Mumm von Schwarzenstein, who, after long years of diplomatic service, is now occupying a high position in the German foreign office, has been called to the sharp criticisms of Germany in the American press, in connection with the sinking of the Lusitania. The words attributed to ex-President Roosevelt that the sinking of the Lusitania was the greatest act of piracy in history were especially emphasized.

The baron authorized the following statement:

"If Mr. Roosevelt used these words he hurled an insult at the whole German people, which we bitterly resent, even at a time when we have to submit to the hatred and falsity of enemies and former friends. He insulted, without excuse, men who, fearless of death, discharged their duty to the fatherland in the hour of need without hope of booty."

"It was only after England declared the whole North Sea a war zone, without maintaining an efficient blockade, that Germany, with precisely the same right, declared the waters around England a war zone and announced her purpose of sinking all hostile commercial vessels therein, whereby it would not always be possible to avoid endangering the crews and passengers."

"In the case of the Lusitania, the German submarines were forced

SOCIETY CHILDREN ORGANIZE FOR AID OF WAR SUFFERERS

EDITH AND GLORIA GOULD

New York, May 13.—The war has been responsible for many relief societies and organizations. Society and the rank and file have worked together since last August for the relief of sufferers abroad and the unemployed at home. The latest organization is the Children of 1915, composed of children of New York's most representative families, who have pledged themselves to help their less fortunate little brothers and sisters abroad and the children of soldiers who have been wounded or killed in the war. The founders of the Children of 1915 want the organization to become world-wide in its membership, its teachings and effect. They want the children of this country, of China and of France, children of everywhere, to become just one big brotherhood and sisterhood. There is but one creed and that is helpful, useful unity. Among the children interested in the movement are Gloria and Edith Gould, daughters of Mr. and Mrs. George Gould; Alexandra and Diana Dalziel, William Astor Chandler, Jr., and many others.

They warned Americans through the great American newspapers against taking passage thereon. Does a pirate act thus? Does he take pains to save human lives? Does he publish warnings at the risk of frustrating his own plans? "Nobody regrets more than we Germans the hard necessity of sending to their deaths hundreds

ANTI-LIQUOR AD. LAWS HELD TO BE O. K.

Montgomery, May 13.—In a decision handed down by the Alabama Supreme Court this morning the Denson anti-liquor law was upheld.

The decision concerns two specific cases one of the Mobile Item charged by the Attorney General with carrying liquor advertisements after the Denson bill became a law. The Item was restrained in court at Mobile from carrying ads and at once appealed from the decision of the Mobile judge.

The other case concerned a Birmingham news dealer. This news dealer was charged with selling foreign papers carrying liquor ads in violation of the terms of the Denson law. He appealed his case to the Supreme Court.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily

Simply get an ounce of othine—longer strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion.

Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength othine as this is the prescription sold under a guarantee of money back if it fails to remove freckles.

MUST CEASE ATTACKS ON UNARMED SHIPS

Washington, May 12.—The United States government, in a note to Germany today, formally demands of the imperial government a strict accounting for the loss of American lives in the sinking of the Lusitania and violations of American rights in the war zone. It also asks guarantees that there will be no repetition of such practices.

With the plain intimation in it that the United States is prepared to meet any eventuality that may rise from a non-compliance, the communication, phrased in unmistakably emphatic language, was prepared to be called to Berlin by nightfall.

Written by President Wilson and approved unanimously by members of the cabinet, the note was being carefully examined by Counselor Lansing and other law officers of the state department today to make sure its phraseology covered every point of law involved.

The White House officials announced that the president finally had determined the course of action to be pursued. The following statement was issued by Secretary Tamm after a conference with the president:

"The course of the President has been determined. It will be announced just as soon as it is proper to publish the note now in preparation."

This was taken to mean that the American government, observing the usual diplomatic amenities, would await receipt of the communication in Berlin before making it public. At first there was some suggestion that the communication be sent personally by the President to Emperor William, but Mr. Wilson determined that it should be addressed, not to an individual, but to the German government and through it to the German people.

In Name of Law and Humanity.

The United States naturally seeks financial reparation, but its protest now is in the name of international law and humanity to obtain a guarantee that such tragedies will not be repeated, and the lives of non-combatants sacrificed.

While high officials were reticent in discussing its contents, it was agreed the note voiced the intense feeling of the United States over recent occurrences.

The communication lays stress on the inhumanity of attacks without warning, on merchant vessels.

It reviews in a general way every case in the war zone in which the rights of American citizens have been transgressed—the sinking of the Falaba with the loss of Leon C. Thresher, an American; the attack by German airmen on the American steamer Gulfstream while flying the American flag; and finally the destruction of the Lusitania with the loss of more than 1,000 non-combatants, and more than 100 of

ETHRIDGE ON TRIAL TODAY

James Ethridge was placed on trial in the Circuit Court today on a charge of shooting to death John Bogus Kirkland at the home of the former near Webb Christmas night. A large number of witnesses were called by both sides.

BRITISH BATTLESHIP GOLIATH TORPEDOED

London, May 13.—The British battleship Goliath has been torpedoed in the Dardanelles. It is feared 500 lives have been lost. Twenty officers and 100 men of the Goliath's crew were saved.

Mr. Churchill said: "The Goliath was torpedoed last night during a torpedo attack by destroyers while protecting the French flank just inside the straits. Twenty officers and 100 men were saved, which I fear means that over 500 were lost."

"The admiral commanding at the Dardanelles also telegraphs that the submarine E-14 which with so much daring, penetrated the sea of Marmora, has reported that she sank two Turkish gunboats and a large Turkish transport."

The Goliath was one of the older British battleships of the pre-dreadnaught type. She was built in 1898. Her complement was 750 men. She was 400 feet long on the water line, displaced 12,950 tons, and was armed with four 12-inch and twelve 6-inch guns; twelve 12 pounders, six 3-pounders; two machine guns, and four torpedo tubes.

The Goliath is the third British battleship whose loss in the Dardanelles attack has been announced by the British government. Loss of the Irresistible, and Ocean was announced March 19th. On April 5, a wireless dispatch from Berlin said the British battleship Lord Nelson also had been destroyed. That report was not confirmed.

The note, while firm and pointed, does not abandon tones of friendliness, giving room for a disavowal by Germany of her acts or an abatement of her practices.

Germany is called on for an explanation of her past and future course, but the note leaves open the steps the United States will take to compel an acquiescence in its position. It calls attention to the fact that while warning advertisements appeared in the newspapers, the United States government never was officially informed that the Lusitania would be torpedoed. It respects of that, however, the position is taken that the sinking of the Lusitania is a war crime and that the United States is bound to demand reparation.

LAST GO TO ITALY MADE BY AUSTRIANS

Rome, 12.—A meeting of the council of ministers, held today to discuss the situation in Italy and Austria, lasted more than two hours. At its conclusion no communication was issued, but it is believed a decision was reached for the cabinet to go before parliament and submit the existing situation to that body.

Rome, May 13.—What is considered the last debate proposed by Austria concerning the territorial concessions demanded by Italy was received today by the Italian government. The cabinet at once went into session to consider it.

The two great political bodies in Italy, one favoring war and the other in favor of continued neutrality have up to the present, refrained from any direct endeavors to shape the conclusions of the cabinet. The group favoring war is composed of the democrats, the radicals, the republicans, the nationalists, the reform socialists and the moderates. Those on the other side are the Catholics, the international socialists, the conservatives and the supporters of former President Giolitti.

Signor Giolitti still is fully convinced war yet can be avoided by obtaining from Austria adequate concessions.

ANTI-TROOP COUNCIL

Troops were called on tonight to disperse a great crowd of war enthusiasts who paraded the principal streets crying "Down with Austria! Down with Giolitti!" and cheering for Premier Salandra and Minister of Foreign Affairs Sonnino.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Being Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it begins to turn gray, fall and become brittle, is caused by a lack of sulphur in the system. Our grandmothers used to use a mixture of Sage Tea and Sulphur. Keep her locks dark and beautiful, and thousands of women value that even color that gives life and brilliancy to the hair. It is so attractive, and only costs a few cents.

Nowadays we get the same mixture by mixing a few drops of sage tea with a little of Sulphur. "Wash's Sage and Sulphur" is the best. It is so simple, so natural, so easily and quickly absorbed. It is so effective, and so cheap. It is so good for the hair, and so good for the skin. It is so good for the whole system. It is so good for the soul. It is so good for the body. It is so good for the mind. It is so good for the heart. It is so good for the liver. It is so good for the stomach. It is so good for the intestines. It is so good for the bladder. It is so good for the kidneys. It is so good for the lungs. It is so good for the throat. It is so good for the nose. It is so good for the ears. It is so good for the eyes. It is so good for the mouth. It is so good for the tongue. It is so good for the teeth. It is so good for the gums. It is so good for the lips. It is so good for the cheeks. It is so good for the chin. It is so good for the neck. It is so good for the shoulders. It is so good for the arms. It is so good for the hands. It is so good for the feet. It is so good for the legs. It is so good for the ankles. It is so good for the calves. It is so good for the thighs. It is so good for the hips. It is so good for the buttocks. It is so good for the pelvis. It is so good for the uterus. It is so good for the ovaries. It is so good for the vagina. It is so good for the clitoris. It is so good for the penis. It is so good for the testicles. It is so good for the prostate. It is so good for the bladder. It is so good for the rectum. It is so good for the sigmoid. It is so good for the colon. It is so good for the small intestine. It is so good for the large intestine. It is so good for the stomach. It is so good for the esophagus. It is so good for the pharynx. It is so good for the larynx. It is so good for the trachea. It is so good for the bronchi. It is so good for the lungs. It is so good for the heart. It is so good for the aorta. It is so good for the pulmonary artery. It is so good for the pulmonary vein. It is so good for the coronary artery. It is so good for the coronary vein. It is so good for the inferior vena cava. It is so good for the superior vena cava. It is so good for the inferior mesenteric artery. It is so good for the superior mesenteric artery. It is so good for the celiac artery. It is so good for the renal artery. It is so good for the renal vein. It is so good for the hepatic artery. It is so good for the hepatic vein. It is so good for the splenic artery. It is so good for the splenic vein. It is so good for the gastroduodenal artery. It is so good for the gastroduodenal vein. It is so good for the pancreaticoduodenal artery. Subscriptions by mail, paid in advance, \$5.00 per annum.

DOTHAN WEEKLY EAGLE

(Published every Friday.)

One year, \$1.00.

Office: Eagle Building, East Troy St., Telephone No. 119.

Friday, May 14, 1915.

The Buy-In-Dothan movement has got a move on it.

Somebody is advocating a Silent Tongues Day. We suppose it would be for "men only."

We've had too much peace talk in this country and not enough preparation to meet just such an emergency as confronts us now.

"Strict accountability" strictly speaking hasn't given a very strict account of itself up to the time of going to press.

President Wilson says there is such a thing as being so right that we won't have to fight. Yes, and there is such a thing as being so strong we won't be provoked to fight.

An unmarried woman lecturer told an audience the other day that the "ideal" husband is never a head-bearer. Maybe so, many head-bearers real husbands lost their hair because they failed to measure up to the wife's "ideal."

Everywhere the Governor goes John Wallace is "among those present." By sticking so close to him John must be still afraid the Governor will make good his threat to recommend abolishing the game and fish commission or's office.

So it has been brought out that during the United States' unpleasantness with Spain, that Germany shipped Spain arms and nothing was said about it at that time. But now, since Germany is in war, it is quite another thing for the United States to sell arms to the warring factions.

Down South they are eating three square meals a day and writing poetry. It takes more than the price of cotton to disturb the happiness of the truly blessed. —Philadelphia Ledger.

That's a slander. One would think those "three square meals a day" came only to those who indulge in the poetry writing business. As a matter of fact, those who write poetry cannot boast of the three square meals.

Dothan Eagle says that "in all Alabama there can't be found a Governor at odds with his legislative body." O'Neal, however, went out with his. —Anniston Star.

You bet still he was not at odds with them, but he did not go with them in extra session.

That the body had the power of heart.

Montgomery Advertiser.

The Governor's Silence.

Nearly all of the papers of the state, that opposed Governor Henderson's nomination, are now hostile to his administration. —Montgomery Advertiser.

The Advertiser's article is to show that Governor Henderson's most "insistent" recommendation was that the legislature should authorize the submission of a bond issue to the people, and that the legislature opposed him in it; also, that The Register is "the chief open defender of the legislature against the policies of Governor Henderson." Quite entertaining, in view of the undisputed fact that The Register came out unqualifiedly for the state bond issue the instant Governor Henderson's message on the subject was made public, and has been for it ever since. In truth, if the Advertiser is no more successful in identifying other critics of its campaign of defamation of the legislature and proving them hostile to Governor Henderson, its cause is in a bad way indeed.

What an impudent assumption is the Advertiser's, that opposition to its campaign to discredit the legislature means hostility to Governor Henderson! It is true that the Governor's very close associates are tarred with this campaign deviltry, but there is almost unanimous disbelief in any participation in it by the Governor.

While this disposition to be fair to Governor Henderson is general, there is resting upon the Governor the duty to reciprocate good feeling by something more definite than silence. The Montgomery Journal gives voice to the thought that the Governor's encouragement has to an extent compromised the governor. That newspaper publishes an article upon Mr. Judge's letter, in which letter, as the Register's readers will recall, was the statement that Mr. Judge, trusting to a promise of an office for a friend, was induced to bestir himself in the encouragement of the "mass meeting" campaign; of Mr. Judge alleging that his instigators were Mr. John Wallace, "one of the Governor's lieutenants," and Mr. Henderson, the private secretary of the Governor; also, that he did the work but failed to get the reward. The Journal says:

"As to the revelations made by Representative Judge, he appears to have been 'Innocence Abroad.' We can't say he deserves any very great amount of sympathy. He is a man who has achieved success in his private business affairs and stands high in the social and business life of the community in which he resides. In his business affairs he is correct in deportment, and 'straight as an arrow.' In politics he allowed some one in Montgomery, according to his story, to take him upon a high mountain and show him things and promise him things.

"He appears to have shown a weakness; but his display of weakness does not relieve any one who may have aimed to speak for the Governor from the censure and odium that attaches to the alleged effort to use the patronage of a great state and of great dignity and honor to do 'poll' manhood, and make representative government a mockery and a byword."

According to Mr. Judge, he was deceived, but that concerns not the public so much as whether the Governor, on being told of it, will put up with such action in his neighborhood. There is hardly a doubt that the govern-

or's name and power have been made use of in support of an effort to discredit the legislature, and that not very delicate means were employed either. Something from the Governor on the impropriety of this performance would be welcomed as timely. —Mobile Register.

The Idle Rich.

The idle rich have some good qualities. John Jacob Astor smilingly gave his place in a life boat to a woman, while he stepped back on the deck of the Titanic and lighted a cigarette. He went down like a man. Alfred Vanderbilt handed his life belt to a woman and took chances on getting another. He never had time to secure another, and he went down like a man.

These two men were members of America's richest families, and if money could have bought safety at such times, they would have been saved. And while we are whaling the rich, and pointing out their crimes, we shouldn't forget that they average up about like the common folks in times of emergency.

Will the Governor Keep Silent?

Some days ago The Eagle expressed the opinion that the Governor, on account of the machinations of a certain wicked cabal, should let the people know that he was not in a broil with a hostile legislature, and let it be known that he was able to command the confidence of that coordinate branch of the government.

It is now manifest, as the abortive effort of the cabal has made clear, that the legislature has the confidence and support of the people; and if the cabal is permitted by the silence of the governor to show that the governor is hostile to the legislature and has an irreconcilable quarrel with that branch of government, the logical conclusion is that the governor has suffered his quasi spokesmen to discredit him.

Now since the Judge episode has exposed the cabal and its conspiracy to use the name and patronage of the governor to support their machinations, it more than ever behoves the governor to shake that bunch and speak for himself.

About Buying at Home.

William Allen White: "The man who buys his goods of a mail order house and expects his neighbors at home to buy goods of him, or to buy labor of him, or to buy professional service of him is economically a leech. He is sucking industrial blood out of the town and giving none back. He sends his profits out of town, like a Chinaman, and has no more right to a standing in the community than a foreigner. We are all neighbors industrially in our home town and the man who sends away for his goods is not one of us. He is another industrial system and deserves no local man's support. The fact that this is economically wrong is recognized by the mail order houses themselves. They protect their customers as thieves by offering to keep people from knowing where the mail order goods come from. The mail order houses have no 'tags' on their goods. They say in their catalogues that none of their goods are marked and that no one knows where they were bought. If it is proper to hide the place of purchase of an article, it is wrong to buy the article at that place. Only

Compare Camels with cigarettes you think you like best. They will stand the test against any brand in the world!

Smoke Camels liberally because they can't bite or parch or leave any unpleasant cigarette after-taste.

Don't look for premiums or coupons. Cost of choice tobacco blended in Camel Cigarettes prohibits their use.

CAMELS sell 20 for 10c. If your dealer can't supply you, send 10c for one package or \$1.00 for a carton of ten packages (200 cigarettes), and postage prepaid. If after smoking one package you are not delighted with CAMELS, return the other nine packages and we will refund your dollar and postage.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

the man who steals is ashamed to administer the affairs of his office where he got anything he has. There is such a thing as 'tainted' dry goods, 'tainted' groceries and 'tainted' furniture. All of such that are not bought at home of men who befriended you, of men to whom you owe a living, are 'tainted,' because they come unfairly."

And to this might be added many other things.

You don't send out of town for burial outfits if you have a dealer at home. You don't send a mail order for mourners' and friends to assist you in times of death in the family.

The man who comforts you while you need comforting, the man who loans you a five, or a ten, when you are in trouble, or goes on your bond, may be the man who has goods to sell. Then when you need things in his line, remember these things. If you send it away, it doesn't help to keep him going and his business growing. When he prospers by selling you, he helps lighten the tax burden, or the burden of the community. He helps to keep up your church, your schools, and your baseball club.

Some day we will write a book, or a circular, at least, on the problem of trading with your home folks, where you expect to make a living out of your home folks.

It would be real refreshing if the citizens of Alabama could elect one Governor big enough to

administer the affairs of his office above petit politics. That, however, is too much to hope for yet.

ELECTRIC DOG IS FAITHFUL

Made By College Students of Engineering, He Follows His Master and Never Strays Away from Home.

That engineers do not lose interest in animal life by dealing with machines is proven by the fact that the electrical engineering students of Highland Park college, Des Moines, Iowa, are making a dog which will follow his master all over the place.

This dog consists of a small box shaped like the animal with two rather prominent eyes in his head. The eyes are made of the metal selenium. This mechanical dog moves his head around until he sees a light; when he at once fixes his eyes intently upon the light toward which he moves rapidly. It is only necessary for the dog's master to carry around an electric light, a pocket search light, or something of the kind to cause the dog to follow him.

The insides of this dog, made entirely by students of Highland Park college, consists of wires, motors, and other electrical elements. If this mechanical dog loses his master, he stands still and moves his head around until he discovers the light again.

THOUGHTS FOR THE DAY

Efficiency does not consist either in knowledge or bold skill. At its helm stands motive aloft, trimming its sail on sympathy, sentiment and purpose.—Charles Henry Brent.

How beautiful is the sunshine Which streameth o'er the way, It so fills the soul with music There comes a cheerful day; And the little deeds of kindness And good that we may say Will fill some soul with sunshine And make life bright as May. The effort costs us nothing And, oh, the good 'twill do As it banishes gloomy shadows Where all is bright to view. —Albert E. Vassar.

Cast your eyes above to the stars even in the bright glare of day, or to the tree tops where inspiration and cheer ever abound.—God's own power in Nature. Glorious inspiration never comes from our own grade; nor the uplift from the level of our feet.—Emile Benson Welsh.

Mrs. A. E. Blackburn and daughter, Miss Emma, leave tomorrow for a visit to relatives in American and Albany, Ga.

St. Cecilia Club—

Mrs. Drowry Foy was a most charming hostess on Thursday afternoon when she entertained the St. Cecilia club at its last meeting of the year. This is always a most interesting meeting and the one on yesterday afternoon was extraordinarily so, on account of the beautiful Victrola program which was carried out in addition to the business meeting.

The same officers, who have served for the past year, were unanimously elected, which are: President, Miss Evelyn Farmer; Vice President, Mrs. E. N. Passmore; Secretary, Mrs. Ethel Williams; Treasurer, Mrs. T. M. Barnett; Choral Accompanist, Mrs. H. G. Forrester; Choral Director, Mrs. S. O. Williams; Director, Mrs. A. E. Pace. Mrs. J. G. Chason was elected a new member of the club.

A novel way for arranging the new year books was decided on. A very attractive cover will be secured and instead of the old printed form which has been used heretofore, the programs will be written by the members.

At the conclusion of the business meeting, Mrs. Foy took charge and the beautiful Victrola

PUT SULPHUR ON AN ITCHING SKIN AND END ECZEMA

Says this old-time Eczema remedy is applied like cold cream.

Any irritation or breaking out on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur, says a noted dermatologist.

He states that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it cures fast to soothe the itching irritation and drive the fungus away and it is often years later before any eruption again appears on the skin.

Those troubled should obtain at any drug store an ounce of bold-sulphur, which is applied to the affected parts in the same manner as an ordinary cold

wailan Quintet, Pietro Diero.

After a social hour, the guests were invited into the dining room where a most delicious buffet luncheon was served.

Voting this the most successful year, since the organization of this delightful club, they adjourned to meet again in September.

Mrs. C. O. Golsen leaves this afternoon for a few days visit to Mrs. Towles Pierson in Elba.

Mrs. Saxon Poyner has returned from a short visit to Newton.

Mrs. Lowrey and Mrs. Gerrish left yesterday afternoon for an extended visit to New York, Brooklyn, Canada and other points.

Mrs. Whaley and Miss Willie Mae Whaley will be at home to their friends at the Walker House hereafter.

You don't necessarily have to be dead to be a corpse.

Righteous indignation, of course is the sort you feel when angry.

The average fat man is going to begin taking more exercise next week.

There are various ways of showing your independence; some men eat onions.

The work of the resolution committee may also be listed among the most futile efforts.

FOR CONSTIPATION

Rexall Orderlies are a common-sense remedy for bowel disorders. Easy in action, they do not purge, gripe, nauseate or cause excessive looseness.

We particularly recommend **REXALL ORDERLIES** For Delicate and Aged Persons and for Children.

INTERNATIONAL HARVEST MACHINES

This International Harvester Engine Fills Your Needs

THIS I H C hopper-cooled engine meets the demand for an engine that can easily be moved on a farm truck, making a portable outfit for use on special machinery, such as well drills, concrete mixers, rigs, and portable pumping plants. The outfit is very compact, the weight moderate yet sufficient, comparatively small amount of water is needed for cooling, hopper-cooled engine there is also less danger of harm from heat as the open top of the hopper allows the water to expand. This engine contains all the good features mentioned in our advertisements and many others which you will appreciate when you see them. It is one of the most satisfactory engines made, from the point of view of economy. It starts and runs with the steadiness of a steam engine, and we know of no better machine for the rough, hard work of the average farm.

TWO WOMEN
AVOID
OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I must thank you with all my heart for Lydia E. Pinkham's Vegetable Compound. I used to go to my doctor for pills and remedies and they did not help me. I had headaches and could not eat, and the doctor claimed I had female trouble and must have an operation. I read in the paper about Lydia E. Pinkham's Vegetable Compound and I have taken it and feel fine. A lady said one day, 'Oh, I feel so tired all the time and have headache.' I said, 'Take Lydia E. Pinkham's Vegetable Compound,' and she did and feels fine now."—Mrs. M. K. Karschick, 1438 N. Pauline Street, Chicago, Illinois.

The Other Case.
Dayton, Ohio.—"Lydia E. Pinkham's Vegetable Compound relieved me of pains in my side that I had for years and which doctors' medicines failed to relieve. It has certainly saved me from an operation. I will be glad to assist you by a personal letter to any woman in the same condition."—Mrs. J. W. Sisk, 126 Cass St., Dayton, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

THE CATTLE TICK.

(By Frank R. Curtis, U. S. Bureau Plant Industry.)

Destroying the cattle tick is not a theory any longer but a demonstrated fact, as is shown by the clearing of 250,000 square miles or an area equal in size to five of the southern states. Once its good is shown in one locality it spreads to the adjoining counties, and in a few years wide areas are cleared and made ready for the profitable production of live stock.

Since the tick eradication began July 1, 1906, the amount of territory cleared has steadily increased, gaining impetus as the work progressed. On March 1st of this year 28,000 square miles were released from quarantine.

Alabama farmers have just begun to wake up and to notice the good effects of this work and to get rid of the ticks.

Progress of the Work.

On January 1st, 1915, only two counties in Alabama and parts of two others were tick-free or had taken any steps to become tick-free. Since the recent enactment of the Alabama Legislature appropriating the sum of \$25,000 annually for four years for assistance in eradicating the cattle tick, the counties taking immediate action have been organized, appointed inspectors, built vats where needed and begun to get out from under the ban of the tick.

The counties taking immediate advantage of the State appropriation include practically all of the "Black Belt" counties of the State, these counties at present ranking highest in production of cattle and in presence of good blooded cattle. Other counties not organized for work this season contemplate taking up the work next season. At the end of the four years that the state has agreed to help in the work Alabama should be tick free from the Tennessee River Valley to the Gulf and from the Mississippi line to Georgia.

During the past eight years Tennessee has been entirely free from the pest, also in Mississippi and North Carolina excellent results have been attained.

each of these states being released.

Now to get down to the subject specifically. The intelligent, well informed farmer asks, "Why the objection to eradicating the cattle tick? What reason is there to continue to harbor it?"

Only One Answer.

There is but one answer to these questions and that is, that the people of the infested section have simply failed to realize the damages annually due to the presence of the cattle tick. The education of a community, pointing out to the farmers the actual loss in cattle values and in milk products brought about by the tick and at the same time showing a way and a method by which this loss can be entirely avoided means every time that this community becomes at once willing to get rid of the tick.

Clearing all of the counties that are now ready and willing to take up tick eradication work is good, but let every county think how much better to make the eradication state-wide and get around petty disadvantages of having one county quarantined against another in inter-county shipments.

WEBB NEWS.

We are having some right pretty weather since the storm.

Mrs. Florence Tripp has been quite sick for a few days.

Mrs. V. L. Webb entertained last Tuesday night in honor of Miss Ruth Webb of Sumter, Ga., and Misses Farmer and Denard of Shorterville. Among those present were Misses Quilla and Gertrude Worrell, Bessie Brackins, Anna Farmer, Leary Denard, Ruth Webb, Mrs. W. F. Webb, Messrs. Thomas Jones, W. C. Wells, W. W. White, Archie and Nicholas Christian, A. C. Redding and W. F. Wells.

Mr. B. F. Webb went over to Dothan Thursday.

Misses Farmer and Denard of Shorterville, are visitors to our town this week.

Mr. Page Floyd of Dothan was in town last night.

Miss Ruth Webb left yesterday for a visit to Mrs. Fain of Midland City.

Rev. E. G. Fenn was in town Thursday morning.

J. W. Pearce from route one, was in town Thursday.

W. D. Antley is out of town part of this week looking after his farm.

Miss Rosa Lee Strickland visited Misses Melton Thursday.

J. A. Strickland had the misfortune of losing his fine horse caused by being killed by lightning Tuesday evening while on his way from Dothan.

Mrs. Lem Maddox of Headland

visits Dothan this week.

No for 'GETS-IT'
When I Have Corns

Simple As Saying It; Never Fails.

It does your heart good to see how easily and quickly any corn comes out when you put "GETS-IT" on! And then when you've gone along for years trying everything, when you've sat up nights wrapping up your toes in bandages, smearing on salves that rub off or swell up the corn, pasting on cotton planters, that

make your corns pop-eyed, slaughtering your toes with razors, jabbing them with knives and prying to the quick with scissors—and then you put on 2 drops of "GETS-IT" and see your corn fall right off—why, it just looks like a miracle. Just try it. "GETS-IT" never fails. No pain no trouble. Use it for any corn, callus, wart or bunion. "GETS-IT" is sold by druggists everywhere, 25 cents a bottle, or sent direct by E. Lawrence & Co., Chicago.

route 4, was in town Thursday morning en route to Simpson to visit her daughter, Mrs. Haney.

MOBILE MAN THANKS

A CHICAGO CHEMIST

Jerome Nicholas Suffered a Long Time, Then Found the Way to Health Quickly, Easily.

Here is the story of a man who long suffered with stomach troubles—how his health slowly failed and how in the end he made a rapid recovery—a joyous surprise.

Jerome Nicholas of Mobile for considerably more than a year knew he was not in good health.

One day, by good fortune, he learned of Mayr's Wonderful Remedy.

In a short time he found himself with new life and energy. He was so well pleased that he urged others to use this truly remarkable remedy. Part of a letter from Mr. Nicholas will tell you his experience.

"I received your medicine and was very anxious to continue the treatment. After taking three doses I felt better than I have felt in a year. I have passed several hundred gall stones, besides other secretions."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

TWO DOTHAN TEAMS TIE

The Printers and Loafers played their first game of the season at Baker Field yesterday afternoon, the final score being 4 and 4. In the last of the ninth inning the Printers claimed the game by one score, but the score for the other team said it was a tie. In view of the misunderstanding, both teams agreed to play three more innings to settle the controversy. Each team scored four runs. The tie may be broken off at some future date.

MIDLAND CITY CAPTURES ONE

Midland City, Ala., May 13.—The home boys played the Dothan team this afternoon on the local diamond and the result was a victory for the home team by a score of 6 to 1. The result was clearly due to left-handed "Sheddie" Clements' pitching which kept the visitors guessing and hunting the ball throughout the entire nine innings. Its whereabouts was still a mystery when "strike three" rang out clearly to the last man up. Balcom made a thrilling catch off third, jumping into a four-foot ditch to capture the ball. Parks pitched for Dothan up to the 5th when he was taken out and Moseley put in. In the 6th

a foul struck Catcher Buxton in the mouth, dislocating some of his teeth and putting him out of the game for the remainder of the evening. In the 7th, Barnes was put in and pitched the balance of the game. The line-ups were: Dothan—Johnson 1b, Moseley 2b, Barnes 3b, Humphries ss, Young rf, Jackson, cf, Lisenby lf, Parks, p. Buxton, c. Midland City—Gullage 1b, McLain 2b, Balcom 3b, Kennedy, ss, Durr rf, Hudgens cf, Hooten lf, Clements p, Andrews c. J. S. Pippin of Pinckard inspired the game.

AMERICUS MAY SELL
There is some talk of Americus, Ga., giving up her franchise in the Georgia State League, owing to the fact that the fans in that city have not responded liberally to the support of the team. The directors of the Americus club threaten to offer the franchise for sale unless there is a decided change. It is understood there are several Georgia towns which would be glad to get a chance at taking over the franchise.

PHILIPS CREEK BRIDGE.
The Philips Creek bridge on the Headland road, has been let out by contract. John Sanders and Jim Young were on hand by eight o'clock the next morning after the wash-out and arranged for the building of the bridge. The roadway around the bridge has been repaired so that travel need not be bothered.

DOTHAN BEATS VALDOSTA 8-2

Valdosta, Ga., May 13.—Dothan won from Valdosta this afternoon by the score of 8 to 2, in which the wildness of Braze was the outstanding feature. Reidy, Burress and Stewart featured at the bat.

Personal Efficiency

Said the General Superintendent to the office manager: "who have you got to take Smith's place?—He goes up."

That is what takes place everyday in the business world. Smith is the young man who forgot about clubs, picture shows and amusements long enough to take a course of study and prepare for better things and he got the well deserved promotion. Are you going to be in Smith's class this fall, or are you going to plug along on the same old salary? We are preparing many students at the present time, let us assist you to better things.
